Warranty Policy – Air Handling Units

Alliance Air Products LLC. warrants our products to be free from defects and material for the shorter of:

- twelve (12) months from date of unit startup, or
- eighteen (18) months from date of shipment;

A Startup form is included with each unit shipped, and must be completed by the installation personnel performing the startup. The completed form must be mailed to Alliance Air Products at the address above within 30 days of startup. For the purposes of this warranty, startup occurs as soon as fans or blowers are started for equipment operation, regardless of when the building is occupied.

In the case of defects in material, Alliance Air Products' obligation under this Warranty shall be limited to the exchange of new parts for those returned to our factory at the buyer's expense, and confirmed to be defective by Alliance Air Products. Replacement parts are shipped F.O.B. Alliance Air Products' warehouse. In the case of defects in material, this warranty covers only the replacement of the defective parts and not the labor to replace them.

In the case of defects in workmanship, design, or non-compliance with submittals, Alliance Air Products will, at its sole discretion, either repair, replace, modify or refund the purchase price as necessary to correct the defect or non-compliance.

This warranty is made in lieu of all other warranties expressed or implied, with the exception of extended warranty coverage specifically included on individual projects, and so noted in the purchase order for that project. In consideration of the warranty herein contained, the buyer expressly waives any right to claim other warranties, expressed or implied. This warranty does not cover corrosion or normal deterioration; damage due to freezing, ice or snow; damage resulting from fire, flood, accident, high or low voltage or power surges; normal maintenance items such as filters, drive belts or fuses, or damage resulting from negligence.

Alliance Air Products reserves the exclusive right to authorize and initiate any warranty claim. Alliance Air Products neither assumes nor authorizes any person to assume for it any obligation or warranty other than that stated herein.
