CUSTOM
AIRHANDLERS

MANUFACTURER OF CUSTOM HVAC-R EQUIPMENT

Headquartered near San Diego, Alliance Air Products was established in 2004 to design and manufacture Custom HVAC solutions to meet any specification, including the most demanding commercial and industrial applications. Alliance Air Products is Buy American Act (Section 1605 ARRA), approved and recognized.

Our state of the art 230,000 sq. ft. manufacturing facility is staffed with a team of experienced personnel who work with you to design and build custom HVAC-R systems to meet your project's specific requirements. Alliance Air Products is involved in every stage of the process, offering ongoing functional and technical support along the way.

Alliance Air Products exceeds the standards of the industry's certifying bodies including AMCA and AHRI. Our equipment is ETL listed, and should your project require IBC or OSPHD certification, you can count on Alliance Air Products to help. For customers who have more stringent requirements, Alliance Air Products can provide additional factory testing including; pressure and deflection, air flow, vibration, rain and acoustical testing.

At Alliance Air Products, we are continually expanding upon our knowledge and services to assist clients with successfully selecting the most efficient and cost-effective solutions for their needs. Extraordinary functional and technical expertise, coupled with extensive industry knowledge makes Alliance Air Products the ideal choice.
